Modern, refined and extraordinary: this special pair of wedding rings from Fischer Trauringe combines warm rose gold 750 with fine gold flakes of 24 ct gold and striking carbon.

The fine gold flakes give the surface a captivating, individual lustre, while the dark carbon forms a modern contrast to the warm rose gold. The interplay of the different materials makes these rings a true eye-catcher with a special character.

The different widths underline the harmonious design of the pair: the ladies′ ring is made with a width of 3.0 mm, the men′s ring with a width of 4.0 mm.

24 ct gold flakes meet striking carbon and warm rose gold: a modern pair of wedding rings for couples who love the special.
