Modern, striking and elegant at the same time: this special pair of wedding rings from Fischer Trauringe combines fine white and rose gold 750 with a characterful hammered texture and a striking carbon element.

The textured surface gives the rings a lively, individual look. The dark carbon sets a modern contrast and underlines the special character of this pair of wedding rings.

The ladies′ ring is adorned with seven finely sparkling diamonds. With a total of 0.035 ct in G/SI quality, the diamonds are elegantly arranged in a pavé setting along the ring and provide a stylish lustre.
