Timeless, powerful and unique: this special pair of wedding rings is handmade in our own workshop and combines fine white gold 750 with a striking facetted texture.

The combination of matt and polished surfaces creates a fascinating interplay of light and surface. Depending on the light, the ring looks a little different each time, which gives it its very own character.

With a width of 7.5 mm, both rings are deliberately expressive in design. The high-quality white gold and the hand-worked surface make this pair of wedding rings a special symbol of a shared path. Fine white gold, striking facets and true craftsmanship: an individual pair of wedding rings with character, made for eternity.
